

Foam Board Printing

You will need:

- Foam boards
- Pencil
- Paper
- Paint/Printing Ink
- Paint Brush

Method:

1. Use a pencil to draw your space designs into the foam. Press hard enough to leave a groove.
2. Choose an ink colour/paint. Using a paint brush, spread a thin layer of the ink/paint around the foam design.
3. Turn the foam over and press it down firmly and evenly onto the paper.
4. Lift the foam up slowly to reveal your design.
5. Repeat numbers 1-4 with your other space design using a different colour.
6. Create your pattern by reapplying the paint/ink and making your space wallpaper.
7. Take a picture of your designs and email us!
