1 Star - Ask an adult to fill 5 cups of water e.g. full, empty, half full, nearly full and nearly empty. Can you order the cups correctly from empty to full? Make sure you use the correct vocabulary.

2 Stars - Find **three** different containers from around your house, e.g. a cup, a bowl and a mug. Can you work out how many cups of water it would take to fill each container? Fill a cup and pour this into the container, how many cups of water does it take to fill the container?

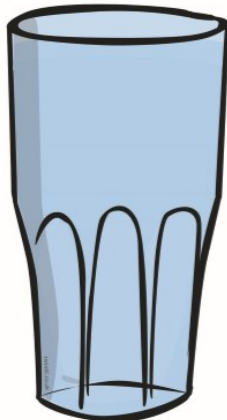

Challenge yourself to record how many cups full.

3 Stars - Find **four** different containers from around your house, e.g. a cup, a bowl and a mug. Can you work out how many cups of water it would take to fill each container? Fill a cup and pour this into the container, how many cups of water does it take to fill the container?

Challenge yourself to predict (guess) how many cups full and then record whether you were right!

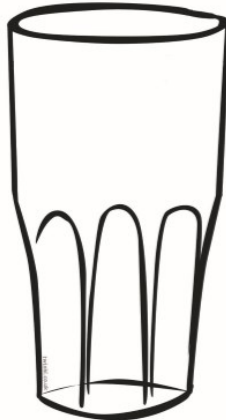

The pictures on the reverse side of this paper will help you with the correct language.
