

Today, we are going to be
comparing subtraction
and addition statements!

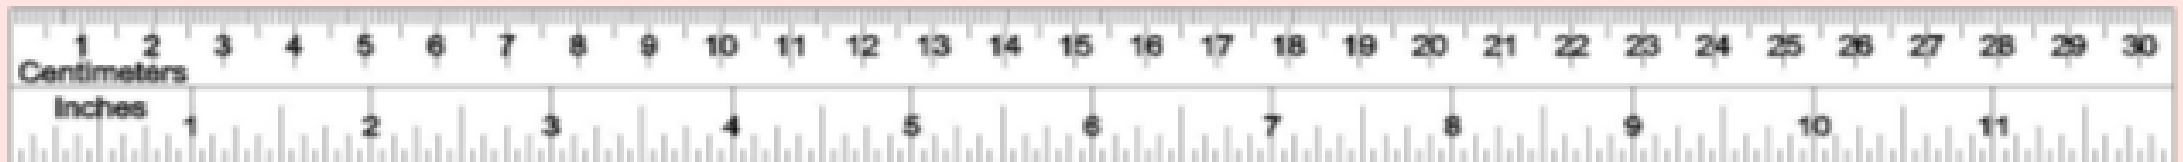

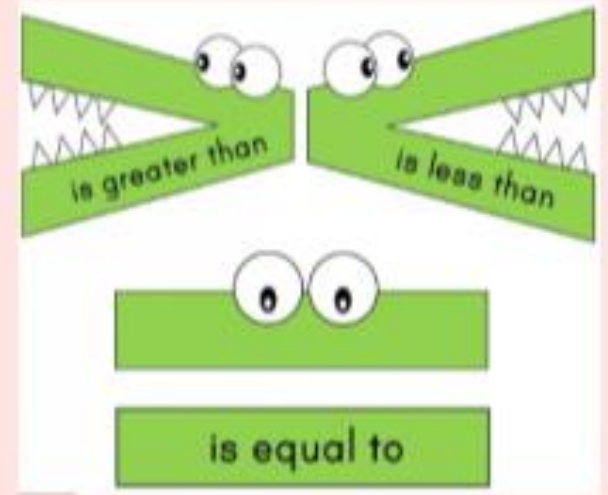

So, first, you must work out what each question is. Then you can compare them.

Remember crocodiles mouth always opens to the largest amount.

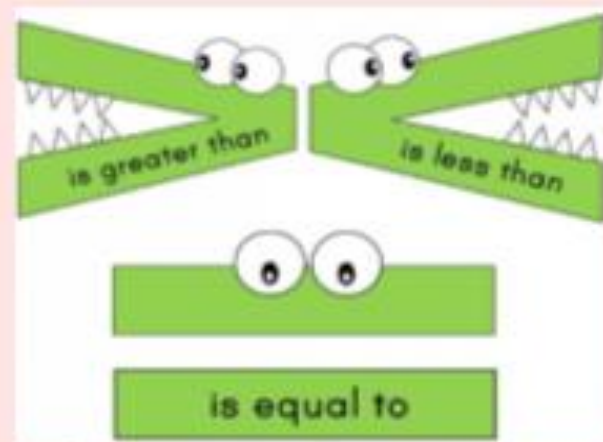

$$20 + 3 = \underline{23} \quad \text{is greater than} \quad 17 - 8 = \underline{9}$$

$$27 - 4 = \underline{\underline{23}} \quad \boxed{\text{is less than}} \quad 19 + 5 = \underline{\underline{24}}$$

$$23 - 8 = \underline{25} \quad \boxed{\text{is equal to}} \quad 20 + 5 = \underline{25}$$
