

Life Skills

It is very important that we begin to learn and consolidate a range of life skills.

This week, the theme is RECYCLING!

See if you can complete these activities and remember to send any pictures to our class email address so that Miss Pike and Miss Griffiths can see them!

1. Research, by using the internet or the information booklet about recycling, which items in your household can be recycled
2. Look around your house each day and ensure to collect items which can be recycled
3. Once items have been collected, make sure you put them in the correct bin/bag ready for the recycling lorries to come and collect them
4. Use this table to see how environmentally friendly you have been throughout the week! For example, if you have now recycled a plastic bottle, you have saved it from 450 years of decomposing! Well done!
