

RE: Prayer

Some people believe that praying regularly enables a person to get better at building their relationship with God. It is a communication process that allows people to talk to God. Many people use prayer as well of communicating to God - someone who they admire and go to for help.

Who would you turn to if you need help? This could be a teacher, a friend, a family member or anyone else you see as important!

Draw a picture of this person and write a paragraph explaining why you would go to them for help.
