Measurement

WALT: order objects longest to shortest.

This week we start a two-week block of maths based on measurement. Today's challenge is to develop the children's understanding of length using the vocabulary longest and shortest. It is a practical challenge!

The children have to find things around the house and order them from the longest to the shortest.

1 Star Challenge: Order 2 objects

2 Star Challenge: Order 3 objects

3 Star Challenge: Order 5 objects

4 Star Challenge: Order as many objects as you can find.

Bonus Challenge: Can you find any objects that are the same length.

Example of the activity.

The longest object was _____

The shortest object was _____
