Measurement

WALT: identify objects that are longer or shorter than a ruler.

Today's challenge is to develop the children's understanding of length using a ruler.

It is a practical challenge!

The children have to find things around the house that are longer or shorter than the length of a ruler.

2 Star Challenge: measure 4 objects.

3 Star Challenge: measure 6 objects.

Bonus Challenge: Can you find any objects that are the same length as a ruler.

<u>Shorter than a ruler</u>	<u>Longer than a ruler</u>
Example- plastic cup	Example- garden spade
