

WALT: add using dienes. (Crossing tens)

Use your dienes and rods to add these numbers together. You will need to count into the next lot of 10. I have to count on from 17 and I go passed 20. Represent your numbers first and then count your tens followed by your ones.

EG $17 + 15 = 32$

$29 + 23 =$	$38 + 17 =$
$49 + 13 =$	$39 + 24 =$
$68 + 24 =$	$49 + 38 =$
