Measures- Time

WALT: recognise units of time

Activity 1: Ordering time measurements

Lots of things can be measured. One thing that can be measured is time. Identify the different ways you can measure time from the list below.

| Months | metres    | grams |          | seconds |  |
|--------|-----------|-------|----------|---------|--|
| year   | rs pounds | cen   | timetres | minutes |  |
| litres | kilograms | hours | days     | pence   |  |

Order the different measurements of time from shortest to longest.

Longest

| Write the times of day in order of when they happen. |           |  |  |  |  |  |
|--|-----------|--|--|--|--|--|
| afternoon morning midnight midda                     | y evening |  |  |  |  |  |
|  |           |  |  |  |  |  |
|  |           |  |  |  |  |  |
|  |           |  |  |  |  |  |
| Activity 2: Identify lengths of time                 |           |  |  |  |  |  |
| Match the description to the correct number          | r.        |  |  |  |  |  |
| months in a year                                     | 5         |  |  |  |  |  |
|  |           |  |  |  |  |  |
| days in a week                                       | 168       |  |  |  |  |  |
|  |           |  |  |  |  |  |
| hours in a day                                       | 31        |  |  |  |  |  |
|  |           |  |  |  |  |  |
| days in a non-leap year                              | 7         |  |  |  |  |  |
|  |           |  |  |  |  |  |
| hours in a week                                      | 24        |  |  |  |  |  |
|  |           |  |  |  |  |  |
| days in a school week                                | 365       |  |  |  |  |  |
|  |           |  |  |  |  |  |
| maximum number of days in a month                    | 12        |  |  |  |  |  |
