

Evidence Me App support

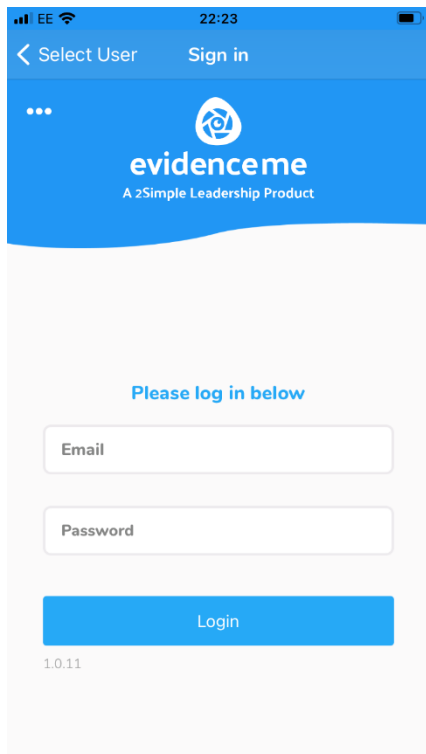

Please see details below on how to use the Evidence Me app

Firstly, download the Evidence Me App from your app store with the blue and white symbol.

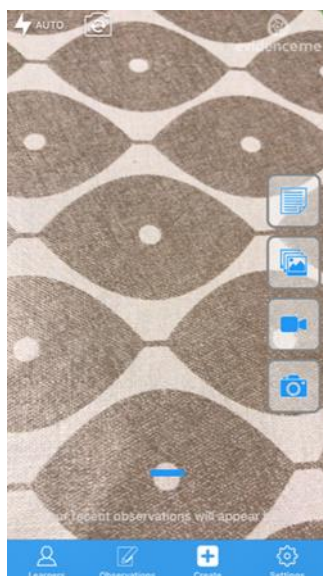

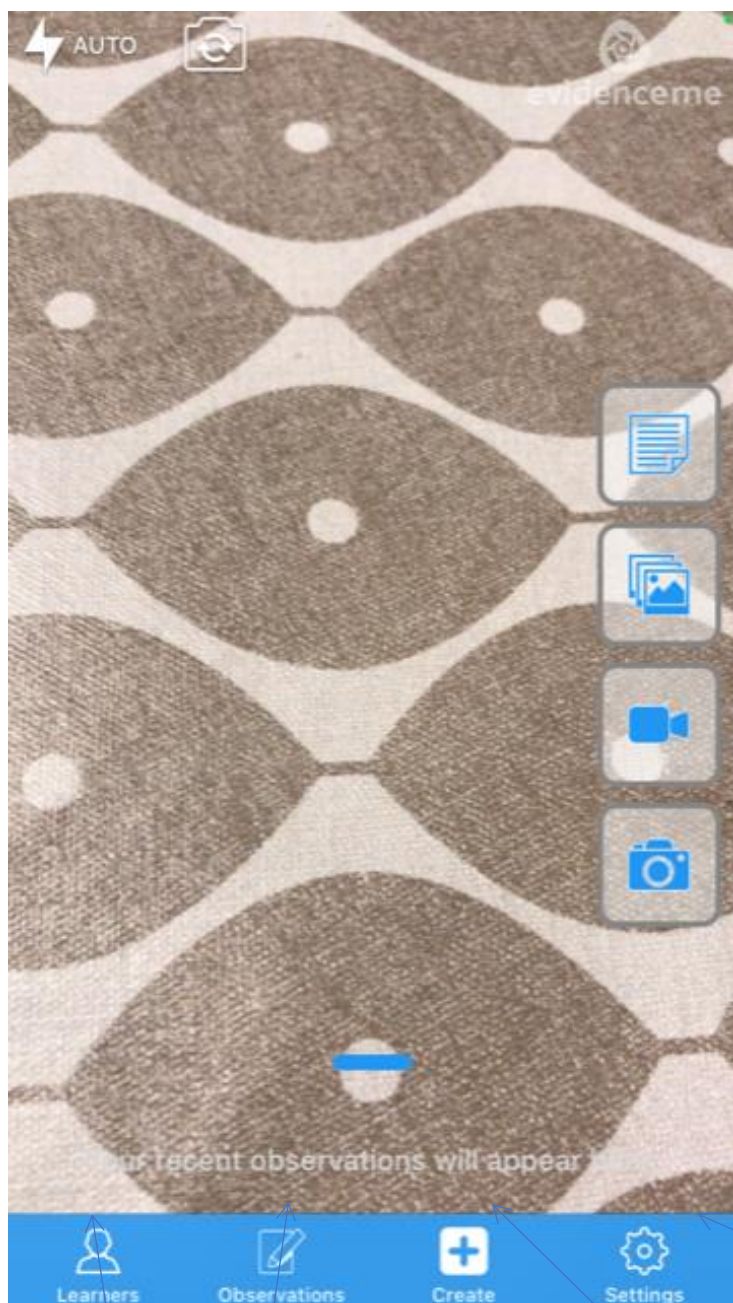

This will then be visible on your home screen like the picture below.

Open this app and enter your username and password that you created when receiving an email to activate your parent account. You will be able to create a pin number for quicker access after signing in for the first time

When signed in your screen should look like this with 4 symbols on the right-hand side and 4 along the bottom.

Please see below in detail what each symbol does.

Click on this symbol to write about something your child has done without a photo.

Click on this symbol to upload a photo of your child that is saved in your photo gallery.

Click on this symbol to record your child. They could be singing, talking, or doing an activity.

Click on this symbol to take a photo of your child. This could be of them doing an activity or something they have made.

Click on these symbols to view previous observations of your child. You can add a filter to view observations from the previous day, week or month.

Click on this symbol to create a new observation for your child.

Click on this symbol to access the settings where you can log out, create a pin code for your account and find out other relevant information about this app.
