

WALT: conduct an investigation.

Science

Use the first video and plan what your table of results may look like:

Table of Results:

Now watch the second video of the investigation. Complete your table of results and then your conclusion!

WALT: conduct an investigation.

Science

After watching the investigation, use your table of results to complete the rest of your investigation write-up! Use the example to help you with your starting sentence!

Was my prediction correct?

Conclusion:

What would you do differently next time?

How was a high degree of trust established?
