Measures- Time

WALT: recognise 5 minute intervals on an analogue clock

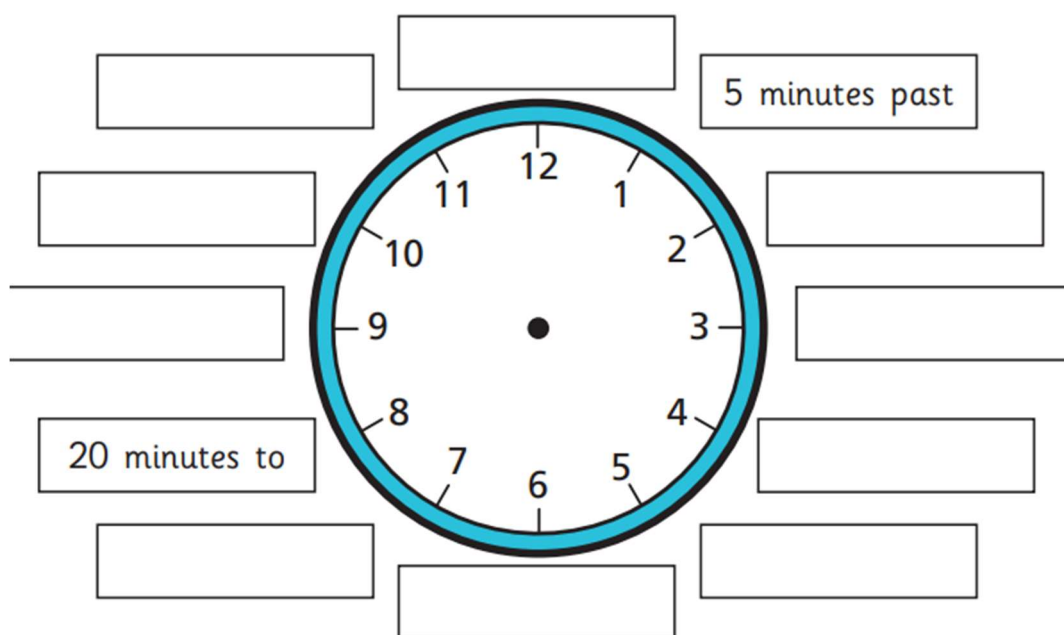

Today we are going to look at what each number on the clock symbolizes in minutes.

Activity 1: Label the clocks. Count up in your intervals of 5 to complete this clock.

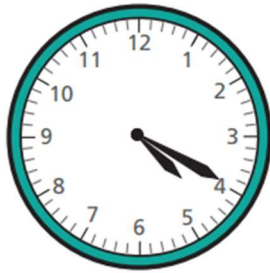

Label this clock with the time you would say.

(Hint: 1-6 are all __past, 7-11 are all __to)

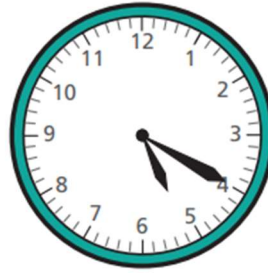

Activity 2: Write the correct time that the hands on the clock are showing.

a)

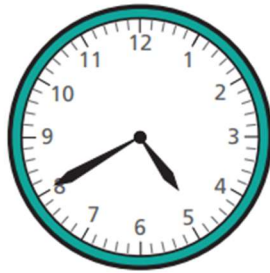

minutes past

c)

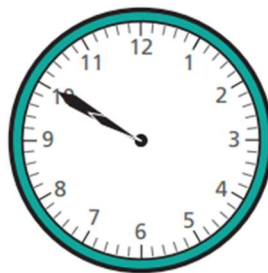

minutes past

b)

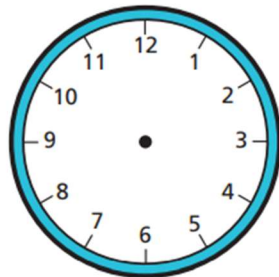

minutes to

d)

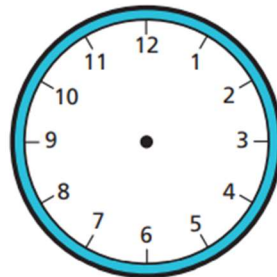

Activity 3: Draw hands onto the clock face to match the time written.

a)

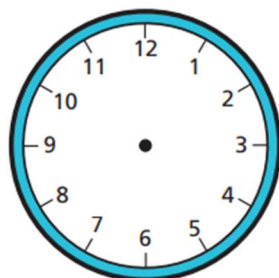

15 minutes past 6

c)

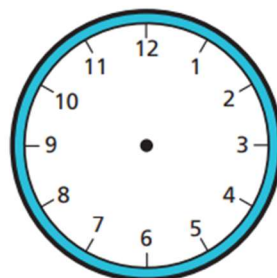

25 minutes to 9

b)

15 minutes to 9

d)

5 minutes to 12
