

WALT: answer place value problems.

Circle the odd one out and explain why.

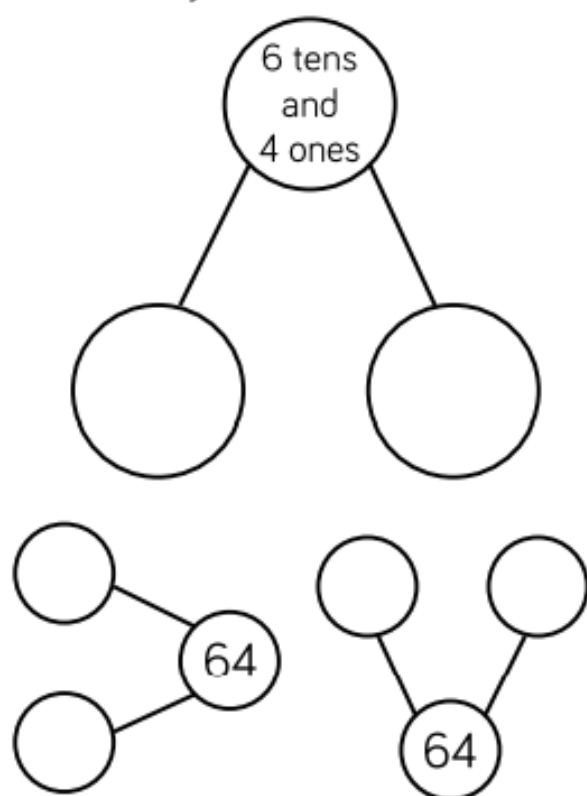

11 12 13 14
15 61 17 18

Jack says he has 61
Is he correct?

Explain your reasoning.

Complete each part-whole model in a
different way.

How many two digit numbers can you
make that have the same number of
tens and ones?

Show each one on a place value chart.

Tens	Ones

True or False?

One ten and twelve ones is bigger than
2 tens.

Explain how you know.
