

Thursday greater depth challenge

1) Thinking about our normal school day:

What time do you get to school?

What time do you get back from school?

What is the duration of time between when you arrive at school until you get home from school?

2) Lunch starts at 11:30am and ends at 12:15pm

Guided reading starts at 12:15pm and ends at 1:05pm

Looking at the two durations of time, which activity is the longest?
