

WALT: create multiplication sums using arrays.

Look at the pictures, count how many columns and rows there are. This will give the 2 numbers for the start of your multiplication sum. Then count them all for the answer.

EG  $4 \times 2 = 8$

1)

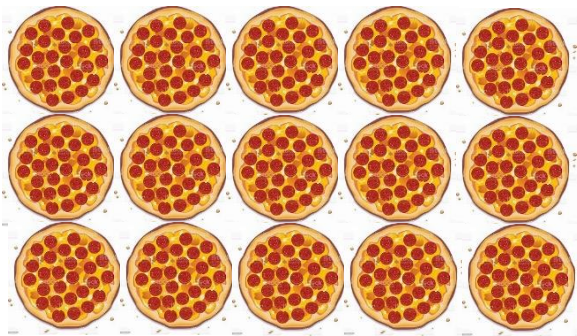

$$3 \times 2 = 6$$

2)

$$4 \times 2 = 8$$

3)

$$5 \times 3 = 15$$

4)

$$6 \times 3 = 18$$
