WALT: subtract using dienes

Draw your dots to represent the first number in the sum. Then cross out the amount of the second number in the sum. EG 5-4=4 and 5 dots and cross out 4 of them. The count how many are left 15-4=8 Represent 15 with 1 rod and 5 dots, then cross out 4 dots. What is left?

25-12 = Represent 25 with 2 rods and 5 dots, then cross out the amount of 12, therefore cross out 1 rod and 2 dots.

16 - 4	l8 - 5	14 - 4
25 - II	24 - 12	27 - I3
26 - II	36 - 13	47 - II
