

WALT: subtract using dienes

Draw your dots to represent the first number in the sum. Then cross out the amount of the second number in the sum. EG $5 - 4 =$ draw 5 dots and cross out 4 of them. The count how many are left. $15 - 4 =$ Represent 15 with 1 rod and 5 dots, then cross out 4 dots. What is left?

$25 - 12 =$ Represent 25 with 2 rods and 5 dots, then cross out the amount of 12, therefore cross out 1 rod and 2 dots.

$57 - 24$	$65 - 22$	$54 - 23$

$38 - 21$	$83 - 32$	$79 - 26$

$45 - 25$	$64 - 51$	$93 - 23$
