26.01.2021

WALT: create our own line graphs.

**1 star:**

**Task 1:**

Using the squared paper provided for you in the pack, draw a line graph to present the data from the table.

| Month | Average Temperature (°C) |
|---|---|
| January | 5 |
| February | 7 |
| March | 9 |
| April | 11 |
| May | 14 |
| June | 16 |
| July | 18 |
| August | 19 |
| September | 17 |
| October | 13 |
| November | 10 |
| December | 7 |

**Task 2:**

Answer the questions below:

1. Which month has the highest average temperature?

_____

2. Which month has the lowest average temperature?

_____

3. What is the difference in temperatures between March and August?

_____

4. What is the difference in temperatures between July and December?

_____

WALT: create our own line graphs.

**2 stars:**

**Task 1:**

Using the squared paper provided for you in the pack, draw a line graph to present the data from the table.

| Month | Average Temperature (°C) |
|---|---|
| January | 4 |
| February | 7 |
| March | 9 |
| April | 11 |
| May | 13 |
| June | 16 |
| July | 19 |
| August | 19 |
| September | 17 |
| October | 12 |
| November | 10 |
| December | 7 |

**Task 2:**

Answer the questions below:

1. Name two months that have the same average temperature.

_____

2. What is the difference in temperatures between March and August?

_____

3. What is the difference in temperatures between July and December?

_____

4. What is the mean temperature of the year?

Remember to find the mean, you need to add up all of the temperatures and divide it by how many months there are.
