

WALT: subtract usingienes.

Use your dienes and rods to represent the first number in the number sentence.

Then cross out the value of the second number. Then count what you have left to find your answer.

EG $5 - 4 = 1$

$7 - 1 =$	$9 - 5$
$12 - 2 =$	$16 - 4 =$
$18 - 5 =$	$27 - 6 =$
