

WALT: use arrays to multiply numbers by more than 3.

Watch the video on the school website to see how we can use arrays to multiply numbers. EG $5 \times 4 =$

The number 5 tells us how many circles we need. The 4 is how many dots in each circle. Then count them up.

1) $3 \times 3 = 9$

--

2) $4 \times 3 = 12$

--

3) $5 \times 4 = 20$

--

4) $6 \times 5 = 30$

--
