Measurement

WALT: Compare the weight of objects.

Today's challenge is to compare objects and answer weight statements.

The children have to find things around the house. Can they compare the weight of two objects at a time using their hands to complete the following statements:

Example

The frying pan is heavier than the toilet roll.

The _____ is lighter than the _____.

The _____ is heavier than the _____.

The _____ is lighter than the _____.

The _____ is heavier than the _____.

The _____ is lighter than the _____.

Extra Challenge

The _____ is about the same weight as the _____.
