Independent Task write an instructional text

3 stars: today you will be writing your own set of instructions. Go through the information sheet and read your plans from yesterday before you begin your writing. Try to write this set of instructions by yourself with no help (just like you would be doing at school). Remember to check that all of your sentences make sense. If you can't read the sentence then your grown up isn't going to be able to either.

Use the writing sheet to write down your set of instructions. Good luck!
