Measurement

<u>WALT:</u> order objects tallest to shortest.

Today's challenge is to develop the children's understanding of height using the vocabulary tallest and shortest. It is a practical challenge!

The children have to find things around the house and order them from the tallest to the shortest.

1 Star Challenge: Order 2 objects

2 Star Challenge: Order 3 objects

3 Star Challenge: Order 5 objects

4 Star Challenge: Order as many objects as you can find.

Bonus Challenge: Can you find any objects that are the same height.

Example of the activity;

The tallest object was	

The shortest object was ________
