

WALT: use arrays to divide numbers by 2 and 3.

Watch the video on the school website to see how we can use arrays to divide by 2 and 3. $4 \div 2 =$

The number 2 tells us how many circles we need. The 4 is how many we need to share equally. Then count the dots in ONE circle.

1) $4 \div 2 =$

--

2) $6 \div 2 =$

--

3) $6 \div 3 =$

--

4) $9 \div 3 =$

--
