

WALT: compare numbers.

Look at the problem. Use the $<$ $>$ or $=$ sign to tell you whether the crocodile will eat the number on the left or the right. Fill the gap.

$$15 > \underline{\hspace{2cm}}$$

$$29 = \underline{\hspace{2cm}}$$

$$37 < \underline{\hspace{2cm}}$$

$$46 = \underline{\hspace{2cm}}$$

$$61 > \underline{\hspace{2cm}} > 12$$

$$19 < \underline{\hspace{2cm}} = 21$$
