

WALT: add using dienes

Draw your dots to represent each number and then count them all together.

If a number is over 10 then you will need to use a rod to represent your tens.

$5 + 4 = 9$	$6 + 3 = 9$	$4 + 7 = 11$

$9 + 4 = 13$	$6 + 7 = 13$	$7 + 5 = 12$

$12 + 6 = 18$	$13 + 3 = 16$	$17 + 4 = 21$
---------------	---------------	---------------

--	--	--

WALT: add using dienes

Draw your dots to represent each number and then count them all together. If a number is over 10 then you will need to use a rod to represent your tens.

$12 + 4 = 16$	$11 + 5 = 16$	$14 + 5 = 19$

$12 + 11 = 23$	$16 + 12 = 28$	$27 + 12 = 39$

$26 + 21 = 47$	$33 + 23 = 56$	$47 + 31 = 78$
----------------	----------------	----------------

--	--	--

WALT: add using dienes

Draw your rods and dots to represent each number and then count them all together.

$53 + 24 = 77$	$61 + 25 = 86$	$54 + 45 = 99$

$38 + 52 = 90$	$83 + 12 = 85$	$73 + 26 = 99$

$45 + 25 = 70$	$64 + 16 = 80$	$47 + 23 = 70$
----------------	----------------	----------------
